Special Finishes - Antique Finishes on Brass Profiles

1. Company Details

Manufacturer C.A.T. Limited
Units 24 A,B,C Park Avenue Estate, Luton, Bedfordshire, LU3 3BP
United Kingdom
T: +44 (0)1582 561500 F: +44 (0)1582 561900
e: sales@cat-accs.com

Antique brass and bronze finishes are a chemically applied patination process to brass products and are hand finished with a variance from batch to batch.

Antique finishes are not foot traffic resistant and are susceptible to scratching and wear as with any finished product that is installed on the floor and subject to wheel and foot traffic.

When installing, contact with grout, cementitious materials and adhesives must be avoided and if in contact with the visible surface will act as an abrasive damaging the finish.

Protection against spillages must always be used during installations to prevent the effects of alkaline and ammonia corrosion on metal trims.

Antique finishes are designed to create an aged unpolished effect, samples are available from C.A.T Sales prior to product selection and installation.
